

RIDGEWAY RISE  
CARE HOME

---

LIVE AN ENRICHED & INDEPENDENT LIFE

---

# WELCOME TO RIDGEWAY RISE CARE HOME

Built in 2016, Ridgeway Rise Care Home is a purpose built luxury care home that offers nursing, residential, dementia and respite care.

Encompassing 73 spacious and beautifully decorated rooms and located in Blunsdon St Andrew, the home enjoys sweeping and breathtaking views over Swindon.

The ethos of the home is to make every day as interesting and as enjoyable as possible. This is achieved by combining the highest quality of care alongside a variety of enriching activities, based on resident's individual preferences, all designed to enhance our resident's well-being and sense of routine.

# A PLACE FOR FAMILY AND NEW FRIENDS

## OUR AIM

The care we give to our residents is straightforward, practical and above all, tailored to their individual needs. We take the time to get to know our residents, to help them retain connections to their family and friends, their community and their past. Everyone has a rich history of life experiences and we want to make the most of these in the care we provide.

## DINING

With a dedicated on-site chef, we always have plenty of tempting culinary choices on offer. We vary our menus on a daily basis while retaining familiar favourites. We accommodate all dietary and cultural requirements.

As well as providing residents with the opportunity to take part in national events and holidays, such as Burn's Night, Valentine's Day, St George's Day and Bonfire Night, we have plenty of themed events, meals and treats to look forward to.

## BEDROOMS

All of our bedrooms have their own TV, adjustable bed, contemporary furniture and en-suite wet room.

In addition to this, the majority of ground floor bedrooms have direct access to their own patio and garden. With central balconies bringing the outside in, first and second floor rooms benefit from stunning views across Swindon and the Wiltshire Downs.

Our central lift also provides residents access to our superb south-facing patio and garden.

## OUR VALUES

Our values are very much underpinned by offering our residents the best possible experience as we appreciate the move to our care home will most likely be a major change for everyone, but at Ridgeway Rise we plan to ensure it's an easy move. We have carefully designed our home with facilities to promote health, safety and happiness, making the most of everyday.

*Moving into a care home is a big decision, so we're here to give you all the support and information we can.*

## DEDICATED COMPASSIONATE AND CARING TEAM

Our dedicated, carefully recruited staff are compassionate and caring. With training and support, we encourage our staff to become Dementia Friends, so they have a full understanding of our residents' needs and particularly those with more complex needs.

Through a dedicated Activities Co-ordinator, we can offer something for everyone, from chair exercise and ball games to help keep fit, to choir practice and quizzes to encourage thinking and teamwork. Our green-fingered gardeners relish the opportunity to spend time in the great outdoors, making the most of our glorious gardens, while our keen bakers always enjoy cooking up some tasty treats for everyone to enjoy.

As we view choice as a vital part of being independent, residents are free to choose what they take part in. And of course, we always ensure the activity is safe and suitable for their abilities.
